KINGDOM COFFEE CO

COFFEE WITH A CONSCIENCE

SINGLE-ORIGIN ORGANIC & FAIRTRADE

PERU

This coffee has a prominent fruity aroma and a vibrant fruity flavour profile, with notes of vanilla, red grape and blackberry. It has a medium body that provides substance without heaviness, while its notable acidity brings brightness and liveliness to each sip. Overall, it is a well-rounded and satisfying coffee with a balanced, fruit-led character.

Cenfrocafe co-operative

Cenfrocafe co-operative was established in 1999 and has grown from 11 Associations to around 2,400 grower members. Based in Cajamarca, Peru, members typically farm between 4–10 hectares, with the area having been developed for coffee over the last 30 years. The farmers use organic compost, Guano de Isla and other organic fertilisers to support tree health and sustainable production. Cenfrocafe has also built its operation around careful cupping, lot separation and preparation, with its cuppers among the first in Peru to become Q-certified.

Our beans are amongst the freshest on the market, being roasted to stock in the UK as opposed to importing roasted beans on a much longer timescale. Our Neotech roaster is more environmentally friendly, energy-efficient and better than conventional drum roasters in that it can roast in specific small batches with unique roasting profiles that are able to compensate product variations and unfold the unique flavour of each individual coffee blend whilst reducing wasted heat by recirculating in the fully enclosed system.

All our Fairtrade beans have an independent third-party trail from cherry to cup and our roastery has a direct relationship with the farms alongside our Q graders. These all meet the Fairtrade Standards that ensure that farmers and workers are treated and paid fairly, as well as meeting Fairtrade's environmental standards that ensure production is sustainable, living up to our slogan "Coffee with a Conscience".

FAIRTRADE

What is Fairtrade?

Fairtrade is about better prices, decent working conditions, local sustainability and fair terms of trade for farmers and workers in the developing world. For more information visit info.fairtrade.net/sourcing
